### Professional Summary

UI/UX Designer with 2+ years of experience creating user-centered digital experiences. Proven track record of increasing user engagement by 25% and qualified leads by 30% through design improvements. Skilled in Figma with front-end development expertise that enables effective collaboration with engineering teams. Passionate about accessibility and translating user needs into intuitive, buildable solutions.

### Core Competencies

**Design Skills:** UI/UX Design, User Research, Wireframing, Prototyping, Design Systems, Visual Design, Interaction Design, Responsive Design

**Design Tools:** Figma, Adobe Illustrator, Adobe Photoshop, Adobe XD

**Development:** HTML5, CSS3, JavaScript, ReactJS, Angular, Bootstrap, WordPress, Elementor

**Platforms & Tools:** GoHighLevel, Beaver Builder, Git/GitHub, REST APIs

### Professional Experience

#### UI/UX Designer & Front-End Developer

January 2025 – June 2025

*Saasyway, Primary focus: UI/UX design and no-code development*

*Remote*

- Led UI/UX design improvements using Figma, achieving 25% increase in user task completion and engagement
- Designed and launched 20+ conversion-optimized websites and sales funnels using GoHighLevel, Beaver Builder, and Elementor
- Built automated lead generation workflows with email/SMS campaigns, driving 30% increase in qualified leads
- Collaborated with development teams to translate wireframes into pixel-perfect implementations

#### Angular Developer Intern

2024 (6 months)

*PDS - EY GDS*

*Kochi, India*

- Developed responsive web components using Angular and Bootstrap for enterprise applications
- Implemented user-facing features including dynamic forms, navigation systems, and interactive UI elements
- Collaborated with design team to refine interfaces based on usability feedback and conducted cross-browser testing

#### Python Full-Stack Developer Intern

2023 (3 months)

*Inmakes Infotech*

*Kochi, India*

- Built web applications using Python (Django/Flask) with focus on intuitive front-end interfaces
- Designed admin dashboards and data visualization components for internal business tools
- Developed RESTful APIs and managed database schemas to support seamless user interactions

#### Web Designer

May 2018 – June 2019

*GJ Infotech Pvt Ltd*

*Thrissur, India*

- Designed and developed **15+ responsive websites** using HTML5, CSS3, JavaScript, and Bootstrap
- Collaborated with clients to define visual direction and implement cohesive brand identities
- Created wireframes and prototypes to validate design concepts before development
- Optimized performance achieving **50% reduction in page load time** through asset compression and code minification

### Education

#### Bachelor of Technology (B.Tech) in Computer Science and Engineering

2020 – 2023

*College of Engineering Munnar*

#### Diploma in Computer Engineering

2015 – 2018

*St. Mary's Polytechnic College, Palakkad*
